

# School Immunization History

## FORM TO BE COMPLETED AT THE TIME OF REGISTRATION

The Simcoe Muskoka District Health Unit is required under the *Immunization of School Pupil's Act* (ISPA) to collect and maintain up-to-date records of immunization for every child registered in school in Simcoe County and the District of Muskoka. **The ISPA states that parents are required to provide the health unit with proof of completed immunization for measles, mumps, rubella, tetanus, diphtheria and polio or with the appropriate documentation if they choose not to have their child immunized: Statement of Medical Exemption (Form 1) or Statement of Conscience or Religious Belief Affidavit (Form 2).** Please contact the health unit for more information.

**Please complete the following section at the time of school registration and attach a photocopy of your child's immunization record.** The school will forward the completed form to the Simcoe Muskoka District Health Unit who will review the immunization information and maintain a record for each student. If your child's immunization is not complete, you will be notified by the health unit.

**Immunization records and updates are *NOT* automatically provided by your doctor. When your child receives their next immunization(s), please call the health unit or complete the secure electronic form on our website at [www.simcoemuskokahealth.org/immsonline](http://www.simcoemuskokahealth.org/immsonline) to update their immunization record in our database.**
